

MOBILE MEDICAL SOLUTIONS

MEDICAL M.S.V. Modular Supply Vessel

The Modular Supply Vessel has been designed for operators in Africa needing an economically viable supply vessel that is easily transported at low cost and can be assembled on site.

Due to the "Modular" design, the vessel is able to fit into a single 40ft shipping container that can be transported to virtually any

destination . We have supplied similar vessels into the Lesotho Highlands, Lake Malawi and Namibia.

The MSV is ideal for applications on large bodies of water, lakes and rivers. These vessel's will safely operate in moderate off-shore conditions.

Specifications:

Length	12m
